Honeywell
Air Force Materiel Command
Strategic Supplier Alliance Charter**

The purpose of this Strategic Supplier Alliance (SSA) is to improve support to our Nation's war fighters through improved and effective sourcing strategies. The Department of Defense (DoD) and Honeywell will collaborate to expand the current SSA relationship. This Alliance will be jointly sponsored and co-chaired by representatives of the undersigned to implement strategies for sharing information and working together, fully leveraging the capabilities of DoD and Honeywell.

To meet this objective, the undersigned hereby reform the SSA with oversight provided by an Executive Committee to establish overall strategies. The Executive Committee shall establish a Joint Steering Group to direct the activities of the SSA and maintain the commitment and focus of the Alliance. Each activity will provide representation for their agency on the Joint Steering Group. The Joint Steering Group may establish Improvement Teams to address specific issues and processes for improvement.

The Defense Supply Center Richmond will serve as the DLA lead, Oklahoma City Air Logistics Center as the AFMC lead, and Honeywell's facility in Tempe, AZ will serve as the Honeywell lead for the Alliance. Other agencies of DoD may become signatories and participants in this Alliance. The parties to this agreement commit to providing the personnel and resources necessary to achieve the objectives of the Alliance.

Improved support to the war fighter will be achieved as follows, with appropriate milestones and measurements to demonstrate success:

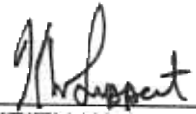

- Efficient business processes
- Flexible agreements across Honeywell
- Continuous improvement feedback
- Managing costs
- Improve readiness/supply availability

The Executive Committee shall meet at least annually or as they so deem. The Joint Steering Group shall meet quarterly unless directed otherwise by the Executive Committee. The Joint Steering Group co-chairs will be responsible for identifying and inviting appropriate stakeholder representatives to meetings and for participation on Improvement Teams. Within sixty days after signature of this document, the Executive Committee and Joint Steering Group will be established.
